

2016 Roadway Rehabilitation Program

The 2016 road rehabilitation program includes improvements to High Haith Road, Marvin Road, part of Redding Lane, and a portion of Shaker Jerry Rd.

The project consists of road reclamation, full box reconstruction (portions), and paving. This work is anticipated to begin by October 1st, weather dependent, starting with High Haith Rd, followed by Marvin Rd, and Redding Lane.

If time and weather permit, Shaker Jerry Rd may be completed this year as well, otherwise it is slated for Spring 2017.

Please do not hesitate to contact Public Works at 253-7445 with any questions.
